

Setup

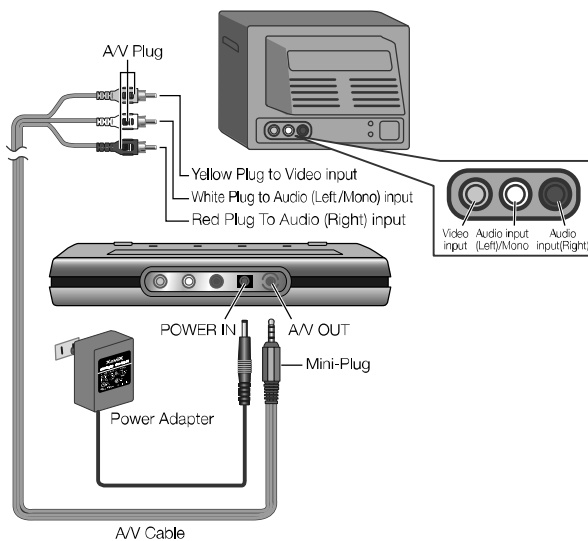

1 Description of XaviX Bowling Ball.

Package contents of XaviXBOWLING

System Cartridge (1)	Bowling Ball (1)
User's Guide (1)	Quick Set-up Guide (1)
Registration Card (1)	Serial No. Label (4)

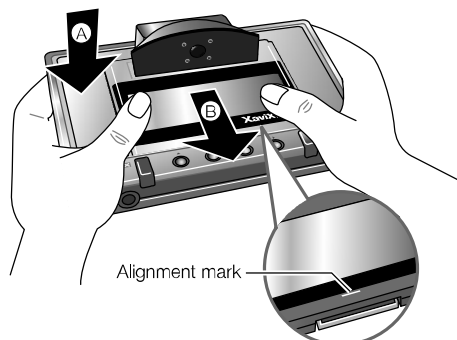

2 Setup XaviXPORT.

Please be sure that the A/V mini-plug is firmly inserted into the back of the XaviXPORT.

*XaviXPORT typically sold separately unless clearly indicated on the package that the PORT is included.

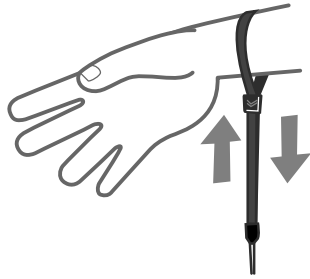

3 Insert System Cartridge.

INSERT the cartridge into the PORT and slide the cartridge towards the front of the PORT. Press the PORT power switch and check to be sure the green power light is on.

 Do not insert or remove the System Cartridge by holding the Camera Sensor section of the Cartridge.

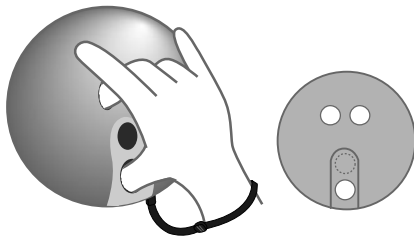

4 How to Hold the Bowling Ball.

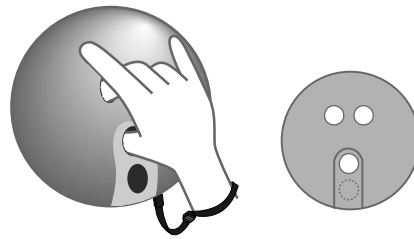

Insert your hand into the wrist strap. Slide the adjuster towards your hand to tighten. Slide the adjuster away from your hand to loosen.

 If you hold the Bowling Ball incorrectly, your fingers may slip out of the Interface grip holes and might cause an accident or injury.

For adults

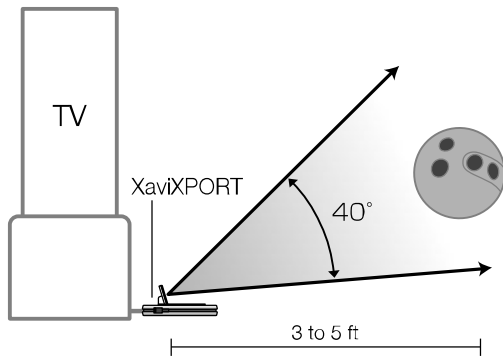

For children

How to Bowl

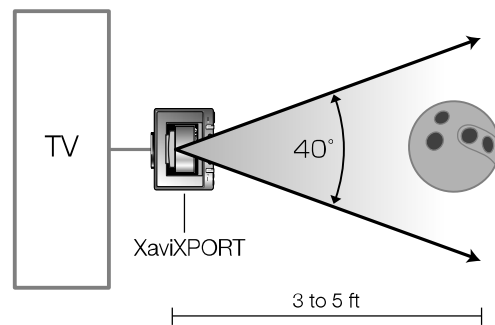

1 Distance and Angle.

Side view

We recommend the above interactive distance and angle.

Top view

To ensure the safety of yourself and others, please allow adequate space to accommodate a full bowling motion.

* Please place the PORT on the floor.

 A strong light source behind you might interfere with the response of the sensor. If this happens adjust or turn off the room lights, then try bowling again.

2 Enjoy "XaviX BOWLING".

For further details, refer to the "XaviXPORT User's Guide" "XaviXBOWLING User's Guide".
